

Biatain[®] Ibu

Soft and conformable Foam Dressing with Ibuprofen
Available in non-adhesive and soft hold

Biatain[®] Ibu

Usage

- Biatain[®] Ibu can be used for a wide range of exuding wounds, including leg ulcers, pressure injuries, second-degree burns, postoperative wounds, skin abrasion and non-infected diabetic foot ulcers
- Biatain[®] Ibu is also suitable for use in combination with compression therapy

Features & Benefits

- **Pain relief:** Biatain[®] Ibu is the first and only dressing ever to combine moist wound healing with local release of ibuprofen². Contains 0.5 mg/cm² of ibuprofen homogeneously dispersed throughout the foam matrix*
In the presence of exudate, there is a sustained release of a low dose of ibuprofen into the wound bed throughout the wear time of the dressing²
- **Superior absorption:** Superior absorption and exudate management allows for reduced risk of maceration and leakage^{1,2}. Biatain[®] Ibu is a soft and flexible, absorbent foam dressing
- **Retention:** Unique foam structure ensures high retention of exudate, even under compression.
- **Patient comfort:** Soft & conformable foam allows for high patient comfort⁴
In addition to moist wound healing, Biatain[®] Ibu helps reduce wound pain during wear time and at dressing change³
- **Bevelled edges:** Absorbent polyurethane foam dressing with bevelled edges
- **Conformability:** Unique 3D foam structure that conforms closely to the wound bed eliminating risk of dead space where bacteria can grow.
- **Long wear time:** Up to 7 days.⁵

Product Codes

Biatain [®] Ibu Non-Adhesive		
Product Codes	Size (cm)	Units Per box
4110	10 x 10	5
4112	20 x 20	5

Biatain [®] Ibu Non-Adhesive		
Product Codes	Size (cm)	Units Per box
4115	15 x 15	5
4120	20 x 20	5

Biatain [®] Ibu Soft-Hold		
Product Codes	Size (cm)	Units Per Box
4140	10 x 10	5
4142	10 x 20	5
